

REMARKS

On February 22, 2005, Examiner Michael Brooke sent an email communication to Winston Hsu, agent of record for the instant application. In the email, Examiner
5 Brooke stated that there was a problem with the figures, particularly Figure 5A and Figure 5B. As it turns out, when submitting this application, Figure 5B was included twice instead of including both Figure 5A and Figure 5B.

After assessing the situation, the applicant decided that the missing Figure 5A was not
10 necessary, and that the duplicate Figure 5B should be deleted. Therefore, this amendment is submitted after the notice of allowance under 37 CFR 1.312 in order to correct the numbering of the figures in the instant application.

In the amendment, the applicant wishes to delete one of these Figures 5B and to
15 change the figure number of Figure 5 to become Figure 5A. The specification is also amended to agree with these changes to the figure numbers. No new matter has been added.

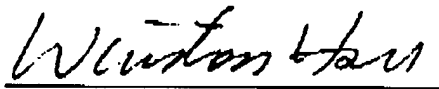

The above amendments merely embody the correction of formal matters in the
20 specification and drawings. The amendments do not affect the scope of the claims in any way.

These amendments were not submitted earlier because the applicant was unaware of this problem with the claim numbering until the examiner informed the applicant in
25 the above-mentioned email of 02/22/2005.

If this amendment under 37 CFR 1.312 cannot be entered by the examiner, the applicant respectfully requests that the examiner make these amendments through an
30 examiner's amendment to put this case in condition for publication as a patent.

Acceptance of the corrected drawings and amended specification is respectfully requested.

Respectfully submitted,

Date: March 8, 2005
